

NEDC FEE SCHEDULE
 (ALL FEES MUST BE PAID IN ADVANCE.)

The most variable cost of the frozen embryo transfer with donor embryos is the home study cost in your state. Another variable will be the cost of the medications. Your individual price will vary with where you purchase your medications. There may also be additional costs that vary with each group of donated embryos due to the cost of shipping these embryos to the NEDC and other fees incurred. The Practice Manager, Juliana Stanley, will instruct you on the dates and places these fees should be paid.

1. Application Fee (Received with initial application to start process, only valid for two years)	\$400.00
International Application Fee	\$500.00
2. NEDC Program Fee (Once medically cleared to proceed to embryo transfer)	\$2,100.00
3. Sibling Program Fee (Collected once medically cleared)	\$1,050.00
4. Embryo Transfer	\$1080.00
5. Embryology Laboratory Fees	\$600.00
6. Cycle preparation/Monitoring Fee	\$620.00
